

# Wedding Prices

## Coverage

I prefer to keep my price structure simple. I have one package at one price. In this package you get my coverage of your wedding and reception with an assistant photographer to cover alternate angles and get shots that I would otherwise miss. We provide both journalistic coverage of the event and formal portraits and group shots. I don't set time limits on my coverage and will generally do whatever it takes to get the photos you want, but usually six to eight hours will cover it. It normally works best to do the portraits and group photos before the wedding, but again, I will be flexible to do what works best for you. We use digital cameras, so there is no limitation to the number of photos shot but usually two to five hundred images will cover most events.

## What You Receive

1. Usually within a week of the event I will provide you with four DVDs containing a slide show of all of the images we shoot.
2. Within two to three weeks of the event you will receive a 10x13 spiral bound photographic proof book with twelve images per page containing all of the images we shot as a reference.
3. A hard cover book of images telling the story of your wedding. I will pick the images that I think best convey the day's events and let you approve an online version before ordering. The number of images per page varies with different layouts. Some pages will contain one full page image, (Usually the most important family or group photos) some will have as many as sixteen photos. Go to <http://www.vanwye.com/Pages/Weddings.html> to see examples. It takes a lot of my time to select and lay this book out so it may take three to six weeks from the wedding to receive your book depending on my workload. Extra books can be purchased for \$200.00.

## The Price

\$1,500.00. \$250.00 non-refundable deposit required to hold the date. The balance to be paid the day of the wedding or before.

## Print Orders

I use my thirty years of experience printing my own fine-art prints and eleven years in the photo-lab business to print all orders myself on luster surface professional paper on a digital printer using archival pigment inks.

Prints can be ordered at any time and are not included in the wedding package price.
